# Food supplement with 4Life Transfer Factor®
from cow colostrum and egg yolk

**Good Manufacturing Practice**
4Life production sites have obtained the certification from NSF® International.

**Raw materials**
Stringent care in the sourcing and origin of its raw materials.

**Formula design**
with specific objectives tailored to each market.

**Exclusivity**
4Life holds patents for the proprietary processes used to obtain active molecules.

**4Life Tri-Factor® Formula**
From cow colostrum and chicken egg yolk.

4LIFE TRANSFER FACTOR
**TRI-FACTOR** FORMULA

**Our formulas are the result of the highest quality research and commitment.**

## RATING OF INGREDIENTS

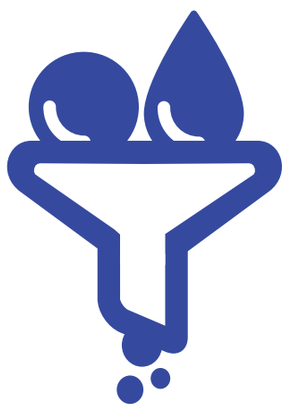

Leading ingredients, backed by internationally approved research, are selected and studied.

## RAW MATERIALS

4Life takes stringent care in the sourcing and origin of its raw materials to ensure it obtains the choicest ingredients:

- It observes strict criteria in the selection of its raw materials (ingredients such as bovine colostrum and eggs are of the highest quality).
- It carries out assessments and audits of its suppliers.

## EXCLUSIVITY

4Life holds patents for the proprietary processes used to obtain active molecules

## FORMULA DESIGN

The final formula is designed with specific objectives tailored to each market.
Pilot tests involving physical and sensory assessments are carried out for each formula.

## FACILITIES AND PROCESSES

We use state of the art manufacturing facilities. The 4Life production sites have obtained Good Manufacturing Practice (GMP) certification from NSF® International. This certification is proof that 4Life uses the right methods, equipment and quality control to ensure it produces the highest quality dietary supplements. 4Life carries out controls on every aspect of the process, from the selection of raw materials to packaging, thus guaranteeing products of the highest quality.
